**Boil Water Notice Rescinded
02/25/2021**

On 02/25/2021, the Texas Commission on Environmental Quality required the City of Clarksville public water system, PWS ID: 1940002, to issue a Boil Water Notice to inform customers, individuals, or employees that due to conditions which occurred recently in the public water system, the water from this public water system was required to be boiled prior to use for drinking water or human consumption purposes.

The public water system has taken the necessary corrective actions to restore the quality of the water distributed by this public water system used for drinking water or human consumption purposes and has provided TCEQ with laboratory test results that indicate that the water no longer requires boiling prior to use as of 02/25/2021.

If you have questions concerning this matter, you may contact Public Works Director Matt McAdoo at 903-427-3834 Ext 253 or by mail at 800 W. Main St. Clarksville, TX 75426. The public water system customers and the executive director shall be able to reach the public water system at one of the numbers listed in this notice. The City of Clarksville, Texas' Public Works Department is committed to providing the best possible water and have completed a comprehensive assessment of our water system. Repairs have been completed to the effected water lines to restore pressure and the effected water tower has been repaired. At this time, the City of Clarksville has restored positive pressure and water samples have been returned from a third-party laboratory as safe for human consumption. Please report all leakages to the City of Clarksville Water Utility Department by calling 903-427-3834 Ext 253.

If a customer, individual, or employee wishes to contact the TCEQ executive director, please call (512) 239-4691.
